All Marmax Products are made from 100% Recycled plastic and are maintenance free.

Marmax Products

PRICELIST

Marmax Products are an award-winning UK manufacturer of outdoor furniture, play equipment, planters, fencing and Special Educational Needs equipment made from 100% recycled plastic, which was once milk containers. We have a recognised reputation in the UK and abroad for manufacturing high quality products to the leisure industry.

Being outdoors is beneficial to everyone; it keeps us fit and healthy, it gets us exploring, socialising and relaxing.

Our range of picnic benches are suitable for all ages, and will compliment any type of environment, providing places for visitors to sit and enjoy the great outdoors. Our Junior Picnic Benches, suitable for children aged 4-7 years old, and our Adult Picnic Benches, suitable for adults and children aged 7 years and over, will provide an ideal place to have lunch and reflect on your day. We also promote social inclusion, and our extended top picnic benches and tables will ensure that wheelchair users and parents with pushchairs can join in the fun with their friends and family.

Our range of seating can be used in conjunction with our tables to provide seating areas outside your play area or dining area, or a place to sit and take a break and reflect on your day. Our seating can also be used as a commemorative seat by adding a plaque to it – an ideal way to honour a loved one, commemorate a celebration, remember a noticeable date or even mark the anniversary of a donation, giving a timeless tribute to a special person or occasion.

We also want to take care of your little ones by providing play equipment which will get children to socialise, use their imagination and get fit and healthy at the same time. Not only that, our animal agility equipment will ensure that all animals, be it dogs at your caravan park or your furry friends in your zoo, we will ensure that this equipment will provide enrichment and exercise for them.

Our range of accessories will make sure that you are prepared for all situations, whether you need to add a bit of colour with our raised beds and planters, provide disposal areas with our bins or cordon off areas with our fencing and bollards, we can assure we

will have the product for you.

Here at Marmax Products, we have the perfect outdoor products to make this a reality. So, if you are looking to refurbish your dining areas in your theme park, give visitors a place to rest in your zoo or even update your play area in your caravan park, our maintenance free, 100% recycled plastic outdoor products are suitable for all. Our products are maintenance free, do not rot, corrode or splinter and come with a 25-year construction guarantee. What's more, the products do not require any staining or varnishing; just wiping down with a cloth or jet washed and they will look brand new.

Marmax Products are proud to be part of reducing plastic waste in the ocean, which is becoming a huge problem. The average person drinks approximately 144 pints of milk per year and each milk container can be recycled; but unfortunately ends up being dumped in either landfill or in our oceans, which harms sea life. Each milk container takes approximately 450 years to decompose, but then it does not disappear altogether. It breaks into smaller and smaller pieces, called microplastics, which is potentially more harmful than the full product as sea life end up eating it. This can then have a drastic impact to us as it will then end up on our plates. By manufacturing our maintenance free outdoor products, we are helping to save the planet, the sea life and our oceans while providing customers with robust, award winning products that people can appreciate for generations to come.
