Marmax
Recycled Products

Providing furniture for Holiday Parks, Theme Parks and Tourist Attractions.

Manufacturing Recycled Plastic Furniture since 1998.

01 Our Green Message

Approximately 12 million tonnes of plastic waste are dumped into our oceans every year, which equates to a truckload of rubbish, every minute of every day.

This rubbish is harming not only the sea life but also our environment. 70% of the oxygen we breathe is produced by plants that live in the oceans and are fundamentally tied to our health and livelihood...but pollution has our oceans on the brink of disaster.

Plastic does not break down as fast as other waste and can take approximately 450 years to degrade, and then it does not go away completely. It breaks down into smaller and smaller pieces, called microplastics. This means that more sea life is not only being harmed by plastic waste, they are now eating it. This can be very harmful for us, as this plastic

Please help

will eventually end up on our plates.

What we do on land can change the fate of what goes on offshore, and small mistakes in waste disposal have a large impact on everyone's health and wellbeing.

Here at Marmax Products, we are very passionate about recycling plastic waste and making it into maintenance free, award winning outdoor furniture and play equipment for any type of environment.

This saves millions of tonnes of plastic waste from landfill and our oceans, at the same time making products that people can appreciate and use for generations to come.

02 Picnic Benches

Furniture in any outdoor area is beneficial for people to sit and relax, eat their lunch and enjoy the great outdoors.

Our range of picnic benches are suitable for all ages, with our Junior Picnic Bench, suitable for children aged 4-7 years old, up to our adult picnic benches suitable for adults and children aged 7 years and over.

We have your standard 'A-Frame' picnic benches, which are our most popular piece of furniture, and our extended top picnic bench, which caters for wheelchair users while sitting up to 6 people at the same time. Our square Octobrunch picnic bench and circular Olympic picnic bench can sit between 8-12 people at any one time. Our Olympic Picnic Bench can also accommodate wheelchair users; just omit one or two of the seats and wheelchair users can sit at the table with others.

Our Picnic Benches, Tables and Chairs will enhance any space!

colours:			

Why we Recycle:

Recycled products must not be seen as second rate, but an equal or better alternative to what is already available, with the added advantage of helping to improve the environment.

Our products are excellent examples of this policy in action and can be used in the classroom or playground as examples of recycling in practice.

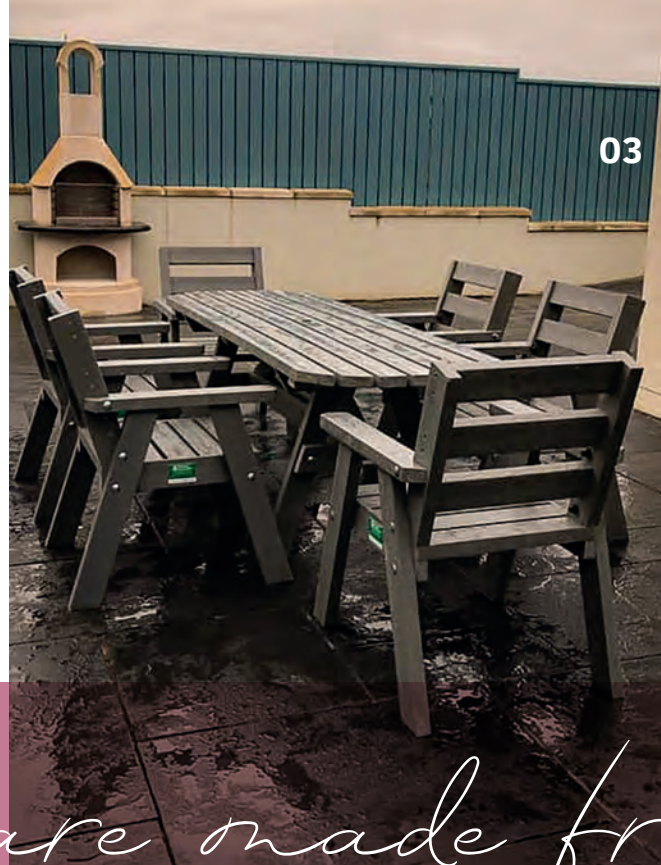

Recycled plastic is better than timber or metal, especially when considering the cost of maintenance, both financially and environmentally.

03 Table and Chairs

Any of our seating can be matched up with our tables to provide outdoor spaces for everyone to enjoy. Visitors can sit and relax, have their lunch while enjoying the views and the great outdoors. Our range of tables vary in size, with our A Tables sitting up to 4 people at any one time, and our large circular table which can sit up to 8 people. Our extended top A Table can accommodate wheelchair users and 4 people can sit at the table at the same time; promoting inclusivity for all.

Made from 100% recycled plastic, the furniture is maintenance free, does not rot, corrode or splinter and can withstand even the harshest of weather, and still look brand new. Also, with a range of colours to choose from, we are sure we have something that will fit in with any type of environment.

Why we Recycle:

Recycling plastic transforms rubbish into a high quality product

One bench uses more than the equivalent of 2000 plastic bottles

Recycling reduces the need for landfill sites

Our benches become tangible tools when discussing recycling

For more information see the RECOUP web site www.recoup.org. RECOUP is the national charity developing plastics recycling in the UK, promoting best practices and providing educational and training tools.

Testimonial

Gill Noppen-Spacie
Sloper Three Seat

I am delighted with my new seat, and it is very comfortable to sit on. Another advantage of the recycled plastic will be that even in the height of summer, my seat will be comfortable and not hot to sit on (unlike metal).

Our visitors from Durham were suitably impressed by the quality and comfort too. Looks splendid in our front garden and we have attached it to the brick wall for security.

Many thanks to Marmax for all of your help and advice. Very efficient service and first class quality.

And thank you for allowing me to enjoy the views in comfort.

Why use recycled plastic?

Recycled plastic is a low maintenance, environmentally friendly and economical alternative to timber.

It has the appearance of wood with the advantages of plastic making it the ideal material for outdoor furniture in urban and park environments.

03

check www.marmaxproducts.co.uk for information

04 Seating

Our range of seating can be used for a place to sit and take a break, or to reflect on your day. All our seating can sit up to 3 people at any one time and can also be used as a commemorative seat by adding a plaque to it.

Our plaques are an ideal way to honour a loved one, commemorate a celebration, remember a noticeable date or even mark the anniversary of a donation, giving a timeless tribute to a special person or occasion.

The seating is all made from 100% recycled plastic, is maintenance free, does not rot, corrode or splinter and is ideal for any type of environment, including coastal areas.

The products can withstand the harshest of weather and still look brand new.

Marmax furniture is resistant to rot, corrosion, splinters, UV and insects!

Why is it better than wood?

It does not fade so it keeps its appearance without the need of paint or stain, eliminating expensive labour costs and environmental damage

It cannot rot, so can tolerate damp conditions

It does not absorb water, so resists fungal growth

It is robust enough to withstand the demands of urban situations

Plastic extrusion eliminates splinters

It is very easy to keep clean, especially where hygiene is important

Our designs are made from substantial heavy duty recycled plastic that resist graffiti, are difficult to burn and are heavy to move.

Testimonial

Deborah Rosser

Traditional Seat

I would like to thank Clair and her colleagues for their kindness and understanding in helping me to obtain a traditional bench in memory of my husband who died suddenly and tragically a few weeks ago.

I gave Clair a tight deadline from order to delivery, including a memorial plaque to be manufactured.

Despite the Easter holiday falling in between, the bench was delivered on the morning of our Celebration of Life, only 3 working days from order. The bench is so beautiful.

As a beach cleaner, founder of ReFILL, to see such a useful object made from something that would normally go into landfill or be incinerated, is a positive step towards a more sustainable future.

Thank you for such efficient service in a time of great sadness for our family.

04

How many plastic bottles does it take to make one recycled plastic bench?

One bench uses more than the equivalent of 2000 plastic bottles.

Will it degrade in acidic turf?

No. The plastic is unaffected by the acid occurring naturally in soil.

How can paint be removed?

The majority of paint can be wiped off with thinners, which do not affect the plastic.

How can marker pen be removed?

The same way as paint, by the use of thinners.

05 Play Equipment

Outdoors, children can be physically active on a scale that is less possible indoors. Being outdoors offers exciting opportunities for purpose filled movement over large areas, exploration of different levels, negotiating along equipment and changes in direction and speed. Outdoors is a place where children can experience the effect of physical activity on their bodies as their hearts beat faster and they breath more deeply after vigorous movement. It also gives children the opportunity to use their imagination, make friends, explore the natural environment and just enjoy being outdoors.

Our range of recycled plastic play equipment can offer children just this. With a variety of options to choose from, we are sure that children will thoroughly enjoy playing pirates on our Playboat, imagining driving on the open road in our

Car, playing snakes and ladders on our Junior Picnic Bench with Gameboard or building castles in our sandpits. We also have our Crazy Golf, which can be popular with those “big kids” too. It can be a family event playing golf and with up to 9 holes to choose from, we are sure there will be something for everyone.

Testimonial

Lin Cooke

Heavy Duty Picnic Bench

I want to thank you all for your help with our order for one of your picnic tables.

We had to ask for the table to come partially flat packed due to the poor access to our back garden, and we were so grateful to whoever labelled the parts up, and including the drill bit.

Let me tell you that person is a star.

It was our first time putting together a picnic table but the labelling up made it so much easier than it could have been.

The finished table is fabulous.

We have already used it many times, and we are pleased that I am telling anyone who asks where to buy one from.

06 Animal Agility

As well as looking after our children ensuring they stay active and happy while out and about, we also know we must look after our furry friends as well.

With our recycled plastic agility equipment, this can not only be used in a dog area in your caravan park but could also be used to exercise animals in your zoo. Designed to keep animals active and healthy, it is designed for use of any animal that needs exercise; from rabbits and guinea pigs in your petting zoo, to meerkats, penguins, otters and even monkeys in their enclosures.

The agility equipment can stimulate the animal's minds, keep them fit and healthy and provide enrichment – while they have lots of fun at the same time. The recycled plastic does not rot, corrode or splinter, so there is no worrying about the animals being hurt by splinters. It is robust and durable and can withstand even the most boisterous of animal playtimes.

Why is it better than wood?

It does not fade so it keeps its appearance without the need of paint or stain, eliminating expensive labour costs and environmental damage

It cannot rot, so can tolerate damp conditions

It does not absorb water, so resists fungal growth

It is robust enough to withstand the demands of urban situations

Plastic extrusion eliminates splinters

It is very easy to keep clean, especially where hygiene is important

Our designs are made from substantial heavy duty recycled plastic that resist graffiti, are difficult to burn and are heavy to move.

Testimonials

Julian Wigman
(Sloper Three Seat) Whipsnade Zoo

I am really pleased with our new Sloper Three Seat bench as it is so comfortable to sit on and I can leave it out all year round. We first noticed these on a trip to Whipsnade Zoo and I thought, "I just have to have one of these," so we noted down the company details from the nameplate on the side and ordered once we got home. I have bought a security chain to secure it in position, but the bench is so heavy it would need a couple of strong thieves to carry this away any long distance. I am so pleased with this purchase and I can thoroughly recommend it. I am now looking at the 8-seater round table and chairs for my patio as my next purchase.

Deborah Rosser
(Traditional Three Seat)

I would like to thank Clair and her colleagues for their kindness and understanding in helping me to obtain a traditional bench in memory of my husband who died suddenly and tragically a few weeks ago. I gave Clair a tight deadline from order to delivery, including a memorial plaque to be manufactured. Despite the Easter holiday falling in between, the bench was delivered on the morning of our Celebration of Life, only 3 working days from order. The bench is so beautiful. As a beach cleaner, founder of ReFILL, to see such a useful object made from something that would normally go into landfill or be incinerated, is a positive step towards a more sustainable future. Thank you for such efficient service in a time of great sadness for our family.

Geoffrey Crute
(Sloper Companion Set)

What a splendid present. We are both delighted with it. This was one modelling job that Ian really enjoyed. You knew precisely what we needed and I'm not at all surprised that the company who made the chairs and mini table have won so many awards, what a great idea. The chairs are perfectly comfortable. Thank you ever so much to you and your team for all your help.

Marmax Products provide strength, stability, support and reassurance while helping the environment too.

Anne Dawson
(Dog Agility Equipment) SARA Foxrush Farm

It was our intention to build a new outdoor run to enable our dogs to spend time outside in the fresh air and have lots of space to exercise and play without a lead whilst waiting for their forever home. Having now received our wonderful exercise equipment from yourselves, the Adventure Playground is now complete. Thank you for your quick delivery and help. The dogs love it.

Jon Davison
(Dog Training Platform)

I recently invested in this equipment for my Doggy Day Care, Boarding and training centre, The Dogs love these platforms, running under over, up and down and just chilling on it. It is brilliant for Canine Enrichment and it helps nervous/anxious dogs build confidence and it also exercises more muscle groups than a normal walk and so provides much needed variance. As a Canine Behaviourist this equipment offers so much and in the first week of being up has helped a nervous dog try out new things (using positive reward based methods). The Equipment itself is incredibly robust (trust me my arms are feeling it), I love the fact that it also from recycled plastic. I will definitely be purchasing more equipment. Well Done Marmax

07 Our Accessories

Our accessories are perfect for providing information to your visitors, and even securing your products to the ground as a permanent fixture.

Our A Boards and Noticeboards can provide information to visitors, such as what events are taking place around your park or zoo, what is on the menu at your café or restaurant and even help visitors manoeuvre around your park or zoo. Our Waste Bins and our brand-new Novelty Bins can provide visitors with somewhere to dispose of their rubbish, keeping your spaces free of waste and helping save the planet. Our boardwalk can provide visitors with a place to walk if the area around them is boggy, or if they must cross water. The anti-slip surface provides additional grip in wet weather and the optional handrail and passing places provide extra width and support.

We also have security fixings for any type of ground to help secure your products to the ground and prevent theft. Our Ground fixing plates are ideal for securing your products to concrete and our ground fixing extended legs are ideal for soft ground and tarmac.

08 Planters & Beds

Every outdoor space needs to have some colour and what better way to brighten up any area with our recycled plastic planters.

Our Bistro Planters are ideal to provide privacy to an outdoor area so visitors can relax in a more removed setting. Our Diplomat Planters can provide a modern look to your area and are available in a variety of shapes and sizes. Our Hexagonal Planter is the perfect product to provide features to areas and our standard small, medium and large planters are ideal for individual plants and flowers and can be used to provide collections of colours around any spaces.

All our planters are made from 100% recycled plastic and are maintenance free, do not rot, corrode or splinter and come with a 25-year construction guarantee. They are available in a variety of colours to suit your needs or even to match the environment around you.

Creating a nice and welcoming environment for your customers to enjoy!

Testimonial

Peter Laughton

Fishing Peg
(Wellingborough & District Nene Angling Club)

I would like to express our thanks for the excellent service that we have received from you. The platforms have been delivered on time and exactly to the specification of our order. We have followed your sheet on how to build them and the result is terrific. Our members are delighted and have a clear demonstration of our commitment to improving the facilities.

Comfortable, blending with the countryside and a massive improvement have been just a few of the many complimentary statements that have been made. Thank you again and well done Marmax!
