Manufacturing Recycled Plastic Furniture since 1998.

01 Our Green Message

Approximately 12 million tonnes of plastic waste are dumped into our oceans every year, which equates to a truckload of rubbish, every minute of every day.

This rubbish is harming not only the sea life but also our environment. 70% of the oxygen we breathe is produced by plants that live in the oceans and are fundamentally tied to our health and livelihood...but pollution has our oceans on the brink of disaster.

Plastic does not break down as fast as other waste and can take approximately 450 years to degrade, and then it does not go away completely. It breaks down into smaller and smaller pieces, called microplastics. This means that more sea life is not only being harmed by plastic waste, they are now eating it. This can be very harmful for us, as this plastic

Please help

us to save our planet and spread the word...

will eventually end up on our plates.

What we do on land can change the fate of what goes on offshore, and small mistakes in waste disposal have a large impact on everyone's health and wellbeing.

Here at Marmax Products, we are very passionate about recycling plastic waste and making it into maintenance free, award winning outdoor furniture and play equipment for any type of environment.

This saves millions of tonnes of plastic waste from landfill and our oceans, at the same time making products that people can appreciate and use for generations to come.

02 Sporting Venues

Being able to sit outdoors and watch your favourite sport is ideal for everyone, and what better way to do this than with our recycled plastic outdoor furniture. From picnic benches to seating, we have everything to ensure that your spectators will have a relaxing time.

Our picnic benches are suitable for all ages and come in a range of shapes and sizes – from our standard A-frame picnic bench which can sit up to 6 people, to our square picnic bench which can sit 8-12 people at any one time. Our range of seating can sit up to 3 people at any one time and can also be used as commemorative seating by adding a plaque to it.

As well as products for your spectators, we have a range of golf products to help your members around the course. From tee markers, divot boxes and even signage, we are sure we have something to maintain your course.

Our products will enhance any sporting venue.

- All the products are made from 100% recycled plastic which is maintenance free, does not rot, corrode or splinter and is guaranteed for a minimum of 25 years.

How many plastic bottles does it take to make one recycled plastic bench?

One bench uses more than the equivalent of 2000 plastic bottles.

Will it degrade in acidic turf?

No. The plastic is unaffected by the acid occurring naturally in soil.

How can paint be removed?

The majority of paint can be wiped off with thinners, which do not affect the plastic.

How can marker pen be removed?

The same way as paint, by the use of thinners.

02

03

03 Fishing and Wildlife

With our range of fishing pegs and pond dipping platforms, we can guarantee that we have something for all fishing and angling clubs to ensure that all anglers can enjoy their fishing. And what's more, our fishing pegs and pond dipping platforms are endorsed by the Angling Trust.

Our Boardwalk is perfect for any type of ground, especially to help visitors pass over boggy areas. The boardwalk comes with an anti-slip surface to prevent any accidents during wet weather.

The long lifespan that makes Marmax so suitable for municipal settings makes it ideal for environmentally sensitive areas. Unlike traditional timber alternatives, our products require little or no maintenance, so no disruption is caused to nearby wildlife.

01

04

05

02

03

Our products are perfect for coastal and saline environments where traditional timber would mould, rot and becomes dangerous. Recycled plastic is completely inert and will not leach chemicals into the water or soil, particularly important for the posts and bearers that are frequently waterlogged or flooded.

Testimonial

Lin Cooke

Heavy Duty Picnic Bench

I want to thank you all for your help with our order for one of your picnic tables.

We had to ask for the table to come partially flat packed due to the poor access to our back garden, and we were so grateful to whoever labelled the parts up, and including the drill bit.

Let me tell you that person is a star.

It was our first time putting together a picnic table but the labelling up made it so much easier than it could have been.

The finished table is fabulous.

We have already used it many times, and we are pleased that I am telling anyone who asks where to buy one from.

04 Picnic Benches

Furniture in any outdoor area is beneficial for people to sit and relax, eat their lunch and enjoy the great outdoors.

Our range of picnic benches are suitable for all ages, with our Junior Picnic Bench, suitable for children aged 4-7 years old, up to our adult picnic benches suitable for adults and children aged 7 years and over.

We have your standard 'A-Frame' picnic benches, which are our most popular piece of furniture, and our extended top picnic bench, which caters for wheelchair users while sitting up to 6 people at the same time. Our square Octobrunch picnic bench and circular Olympic picnic bench can sit between 8-12 people at any one time. Our Olympic Picnic Bench can also accommodate wheelchair users; just omit one or two of the seats and wheelchair users can sit at the table with others.

Why we Recycle:

Recycled products must not be seen as second rate, but an equal or better alternative to what is already available, with the added advantage of helping to improve the environment.

Our products are excellent examples of this policy in action and can be used in the classroom or playground as examples of recycling in practice.

Recycled plastic is better than timber or metal, especially when considering the cost of maintenance, both financially and environmentally.

01

02

05 Table and Chairs

Any of our seating can be matched up with our tables to provide outdoor spaces for everyone to enjoy. Visitors can sit and relax, have their lunch while enjoying the views and the great outdoors. Our range of tables vary in size, with our A Tables sitting up to 4 people at any one time, and our large circular table which can sit up to 8 people. Our extended top A Table can accommodate wheelchair users and 4 people can sit at the table at the same time; promoting inclusivity for all.

Made from 100% recycled plastic, the furniture is maintenance free, does not rot, corrode or splinter and can withstand even the harshest of weather, and still look brand new. Also, with a range of colours to choose from, we are sure we have something that will fit in with any type of environment.

03

04

Why we Recycle:

Recycling plastic transforms rubbish into a high quality product

One bench uses more than the equivalent of 2000 plastic bottles

Recycling reduces the need for landfill sites

Our benches become tangible tools when discussing recycling

For more information see the RECOUP web site www.recoup.org. RECOUP is the national charity developing plastics recycling in the UK, promoting best practices and providing educational and training tools.

Why use recycled plastic?

Recycled plastic is a low maintenance, environmentally friendly and economical alternative to timber.

It has the appearance of wood with the advantages of plastic making it the ideal material for outdoor furniture in urban and park environments.

02

03

06 Seating

Our range of seating can be used for a place to sit and take a break, or to reflect on your day. All our seating can sit up to 3 people at any one time and can also be used as a commemorative seat by adding a plaque to it.

Our plaques are an ideal way to honour a loved one, commemorate a celebration, remember a noticeable date or even mark the anniversary of a donation, giving a timeless tribute to a special person or occasion.

The seating is all made from 100% recycled plastic, is maintenance free, does not rot, corrode or splinter and is ideal for any type of environment, including coastal areas.

The products can withstand the harshest of weather and still look brand new.

Marmax furniture is resistant to rot, corrosion, splinters, UV and insects!

Why is it better than wood?

It does not fade so it keeps its appearance without the need of paint or stain, eliminating expensive labour costs and environmental damage

It cannot rot, so can tolerate damp conditions

It does not absorb water, so resists fungal growth

It is robust enough to withstand the demands of urban situations

Plastic extrusion eliminates splinters

It is very easy to keep clean, especially where hygiene is important

Our designs are made from substantial heavy duty recycled plastic that resist graffiti, are difficult to burn and are heavy to move.

How many plastic bottles does it take to make one recycled plastic bench?

One bench uses more than the equivalent of 2000 plastic bottles.

Will it degrade in acidic turf?

No. The plastic is unaffected by the acid occurring naturally in soil.

How can paint be removed?

The majority of paint can be wiped off with thinners, which do not affect the plastic.

How can marker pen be removed?

The same way as paint, by the use of thinners.

07 Play Equipment

Outdoors, children can be physically active on a scale that is less possible indoors. Being outdoors offers exciting opportunities for purpose filled movement over large areas, exploration of different levels, negotiating along equipment and changes in direction and speed. Outdoors is a place where children can experience the effect of physical activity on their bodies as their hearts beat faster and they breath more deeply after vigorous movement. It also gives children the opportunity to use their imagination, make friends, explore the natural environment and just enjoy being outdoors.

Our range of recycled plastic play equipment can offer children just this. With a variety of options to choose from, we are sure that children will thoroughly enjoy playing pirates on our Playboat, imagining driving on the open road in our

Helping children to get up and get out - enjoying their lives to the full!

Car, playing snakes and ladders on our Junior Picnic Bench with Gameboard or building castles in our sandpits. We also have our Crazy Golf, which can be popular with those “big kids” too. It can be a family event playing golf and with up to 9 holes to choose from, we are sure there will be something for everyone.

Testimonial

Lin Cooke

Heavy Duty Picnic Bench

I want to thank you all for your help with our order for one of your picnic tables.

We had to ask for the table to come partially flat packed due to the poor access to our back garden, and we were so grateful to whoever labelled the parts up, and including the drill bit.

Let me tell you that person is a star.

It was our first time putting together a picnic table but the labelling up made it so much easier than it could have been.

The finished table is fabulous.

We have already used it many times, and we are pleased that I am telling anyone who asks where to buy one from.

08 Planters & Beds

Every outdoor space needs to have some colour and what better way to brighten up any area with our recycled plastic planters.

Our Bistro Planters are ideal to provide privacy to an outdoor area so visitors can relax in a more removed setting. Our Diplomat Planters can provide a modern look to your area and are available in a variety of shapes and sizes. Our Hexagonal Planter is the perfect product to provide features to areas and our standard small, medium and large planters are ideal for individual plants and flowers and can be used to provide collections of colours around any spaces.

All our planters are made from 100% recycled plastic and are maintenance free, do not rot, corrode or splinter and come with a 25-year construction guarantee. They are available in a variety of colours to suit your needs or even to match the environment around you.

Why is it better than wood?

It does not fade so it keeps its appearance without the need of paint or stain, eliminating expensive labour costs and environmental damage

It cannot rot, so can tolerate damp conditions

It does not absorb water, so resists fungal growth

It is robust enough to withstand the demands of urban situations

Plastic extrusion eliminates splinters

It is very easy to keep clean, especially where hygiene is important

Our designs are made from substantial heavy duty recycled plastic that resist graffiti, are difficult to burn and are heavy to move.

09 Ground Maintenance.

Our accessories are perfect for providing information to your visitors, and even securing your products to the ground as a permanent fixture.

Our A Boards and Noticeboards can provide information to visitors, such as what events are taking place around your park or zoo, what is on the menu at your café or restaurant and even help visitors manoeuvre around your park or zoo. Our Waste Bins and our brand-new Novelty Bins can provide visitors with somewhere to dispose of their rubbish, keeping your spaces free of waste and helping save the planet. Our boardwalk can provide visitors with a place to walk if the area around them is boggy, or if they must cross water. The anti-slip surface provides additional grip in wet weather and the optional handrail and passing places provide extra width and support.

We also have security fixings for any type of ground to help secure your products to the ground and prevent theft. Our Ground fixing plates are ideal for securing your products to concrete and our ground fixing extended legs are ideal for soft ground and tarmac.
