About Us

Marmax Products are seen as one of the market leaders in the manufacturing of 100% recycled plastic furniture which does not rot, corrode or splinter and is guaranteed for a minimum of 25 years. Furthermore, once the product has come to the end of its life, we are able to recycle this back into the extrusion process and create more products for future generations. We cater for all sectors of industry, from schools and councils, theme parks and pubs, parish councils and hospitals to fisheries, sporting clubs and re-homing centres.

Our vast range of products means we have something for everyone. Because all of our products are handmade in our factory in County Durham, we are able to offer a bespoke service so if there is anything that you require but cannot see it on our website, give us a call and we will be happy to help.

**A family
company with
family values**

Approximately **12 million tonnes of plastic waste** are dumped into our oceans every year—equivalent to a truckload of rubbish every minute of every day.

This waste is not only harming marine life but also devastating our environment. Around 70% of the oxygen we breathe is produced by ocean plants, which are crucial to our health and livelihoods. However, pollution is pushing our oceans to the brink of disaster.

Unlike other waste, plastic does not break down quickly. It can take approximately 450 years to degrade, and even then, it never fully disappears. Instead, it breaks down into smaller and smaller pieces, known as microplastics. As a result, more marine life is not only being harmed by plastic waste but is also ingesting it. This has serious consequences for humans too, as these plastics eventually make their way into our food chain.

What we do on land directly impacts the health of our oceans. Small mistakes in waste disposal can have far-reaching effects, not just on marine ecosystems but on our own well-being.

**One bench uses
more than the
equivalent of
1500 plastic
bottles**

We proudly support...

NSPCC

At Marmax, we are proud to support the NSPCC by donating a percentage of every sale of our Buddy Benches to help fund their vital work in protecting children and supporting families.

Our Buddy Benches are designed to create an inclusive and welcoming space where children and adults alike can connect, make new friends, and engage in meaningful conversations outside their usual social circles.

Whether in schools, parks, or community spaces, these benches encourage positive social interaction and help foster a sense of belonging for everyone, regardless of age, gender, race, or special educational needs.

By purchasing a Buddy Bench, you are not only promoting kindness and inclusion but also contributing to a cause that ensures children across the UK have access to the support and protection they need. Together, we can make a real difference—one bench at a time.
